

Saint Casimir's Church Residential Conversion

Nashua, New Hampshire

Cuoco & Cormier worked closely with Neighborhood Housing Services of Greater Nashua and the City of Nashua to develop a comprehensive plan to save the historic Saint Casimir's Church. This initiative prevented the loss of this architectural gem and transformed the abandoned church property into 28 units of affordable housing.

The productive re-use of this site has helped the City of Nashua to increase the amount of affordable housing available in downtown Nashua. By creatively re-using this site, Cuoco & Cormier has been able to support the efforts of City of Nashua and the Neighborhood Housing Services of Greater Nashua to promote re-vitalization in this section of Nashua.
