

TECHNOLOGICAL Resources

Cuoco & Cormier Engineering Associates, Inc. takes advantage of the latest technologies available to bring our customers the most precise and professional services obtainable.

From our detailed engineering & survey drawings, to our high-end renderings and web-based graphics, to our precision field instruments, our investment in technology gives our customers the best product on the market today, and tomorrow.

At the core of Cuoco & Cormier's high-end CAD production is the Autodesk suite of engineering software; Land Desktop, Civil Design, Survey, 3D Design and Raster Design. Cuoco & Cormier compliments this with industry leading specialty software such as Haestad Method's StormCAD, PondPAK, CulvertMaster & FlowMaster, as well as Transoft Solutions' Autoturn software.

Our in-house graphics department, GFX Graphics, also utilizes the latest technology such as the Adobe CS suite software to deliver high-end color renderings and web-enabled graphics that bring our customer's projects to life.

Other software products include...

Graphics software:

- ü Adobe Photoshop CS
- ü Adobe GoLive
- ü Adobe ImageReady
- ü Adobe Illustrator
